Who are Manx solar electrical?

You might be surprised! 2019 Manx Solar Electrical Ltd. Registered in the Isle of Man No. 127 689C. VAT Registration No. 004 6877 73 The Isle of Man's leading renewable energy provider, Solar PV, Heat Pumps, EV Charging, Tesla Powerwall, Solar Edge, Stiebel Eltron, Dimplex, Mitsubishi, JA Solar.

Is it time to install solar panels in the Manx?

Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

Manx Solar Electrical are the Isle of Man's exclusive Stiebel Eltron service partners. We are also a Mitsubishi ASHP service partner and Dimplex approved and accredited installers. Our engineers install high performance JA Solar / REC and Sun Power solar modules together with SolarEdge optimisers and inverters.

We are the only approved Tesla Powerwall certified installers for the Isle of Man and can deliver and install a Powerwall for approximately £9,500. (*) All prices are correct as of June 2022 and can change due to market conditions beyond the control of Manx Solar Electrical.

Solar Panels. Solar Panels are a very efficient way to harvest the Isle of Man's solar potential and turn it into power for your home or business. The Isle of Man produces more solar than you would think, even on an overcast day, we are still reaping the rewards of ...

When investigating solar panels there are many questions: how many panels can my roof take? what will they look like? the price? how much power generated? yearly returns? go green use ...

Isle of Man solar panels kit

Solar panel electricity systems, also known as photovoltaics (PV), capture the sun's energy using photovoltaic cells. The cells convert the sunlight into electricity, which can be used to run household appliances and lighting. These cells don't need direct sunlight to work - they can still generate some electricity on a cloudy day.
