

Our broad and deep experience in the instrument transformer field, especially for non-conventional instrument transformers, allows Greenwood Power to bring the best sensors, with the best features, at the lowest costs, to the global marketplace.

Greenwood-Power products. We have already developed numerous, highly innovative, and award-winning voltage and current sensors. Our broad and deep experience in the instrument transformer field, especially for non-conventional instrument transformers, allows Greenwood Power to bring the best sensors, with the best features, at the lowest costs, to the global ...

Greenwood-Power was founded in 2017 and is specialized in designing and developing non-conventional instrument transformers for the medium voltage grid. Products are dedicated to a variety of applications, like gas insulated switchgear, air insulated switchgear, and outdoor installations, which have high resistance to harsh environmental ...

Hitachi - IPS Event 2024. by Stefanie Waschek | Oct 14, 2024 | Events, News. Hitachi - IPS Event 2024 October 15 - 18, 2024 | Heidelberg Marriott Hotel, Germany We are pleased to be part of this year's Hitachi IPS Event from October 15-18, 2024 at Station 9!

Greenwood-Power GmbH | 340 abonn&#233;s sur LinkedIn. Superior innovative sensor solutions | Current and voltage sensors for the smart grid Greenwood Power provides a key component to the upcoming Smart Grid. The current and voltage sensors are small, have high accuracy and are resistant to environmental influences. This could clear the way to an end of energy production ...
