

KACO new energy has expanded its blueplanet product series with several completely redesigned devices, thereby introducing completely new performance classes to their product segment. Get an overview here: ...

**KACO new energy Product advantages** KACO new energy is a German company that develops and manufactures inverters, monitoring devices and PV accessories "Made in Germany". The company, founded in Heilbronn in 1984, has been a subsidiary of Siemens AG since 2019 and is its specialist for power electronics and decentralised energy supply.

KACO new energy, Inc. - a powerful partner in the field of photovoltaic inverters. KACO new energy has 4 GW of PV inverters deployed and is one of the largest inverter manufacturers worldwide with production in Germany, Canada, USA and South Korea.

KACO new energy has expanded its blueplanet product series with several completely redesigned devices, thereby introducing completely new performance classes to their product segment. Get an overview here: blueplanet 100 NX3 / 125 NX3. Currently, the new blueplanet-inverters are the only 100 kW ones "made in Germany".

KACO new energy is a company that focuses on inverter technology within the solar power and energy storage industry. The company's main offerings include inverters for solar photovoltaic (PV) systems, battery storage solutions, and energy management systems for large consumers.

KACO new energy, as a medium-sized company with dedication and a passion for research, stands for high quality engineering skills in the field of independent and decentralised energy supply. Our inverters are designed to support the use of renewable energies as well as efficient energy management throughout the world.

**PORTFOLIO KACO new energy.** 1 October 2024. Contents 3 Residential 3-phase hybrid inverters blueplanet hybrid 6.0 NH3 - 12.0 NH3 4/5 Residential 1-phase string inverters blueplanet 3.0 NX1- 5.0 NX1 6 Residential 3-phase string inverters blueplanet 3.0 NX3 - 10.0 NX3 | blueplanet 15.0 NX3 / 20.0 NX3 7 8/9

KACO new energy is a manufacturer of inverters for photovoltaic plants and energy storage systems. Its products include reactive power compensation units, hybrid and battery inverters, DC-breakers, photovoltaic accessories, etc. The company caters to the utility, commercial, and residential sectors.
