A managed power system ensures that only one high-demand appliance is allowed to start at any given time. This prevents overloading the generator. Some systems are capable of managing up to six high-demand appliances. More sophisticated systems can remember how much power it takes to start a motor.

Norwall PowerSystems offers 20kW standby generators from four companies. They bundle generators in a variety of packages to meet the needs of most homes and keep their critical and essential appliances running during a power outage. ...
