

Leading shares of photovoltaic module inverters

What is the global PV inverter market share?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's 'Global solar inverter and module-level power electronics market share 2024' report.

What is the global PV inverter & module-level power electronics market share 2023?

Our latest 'Global Solar PV Inverter and Module-Level Power Electronics Market Share 2023' report reveals a buoyant market in 2023, with 48% year-over-year growth in global PV inverter shipments.

Which companies are leading the global PV inverter market in 2023?

Loading... Global PV inverter shipments grew by 56% to 536 GWac in 2023, with China dominating the market. Huawei and Sungrow retained their top positions, reflecting strong demand and significant growth in the solar industry.

Which inverter vendors dominated the global photovoltaic market in 2022?

Huawei and Sungrow remained market leaders in 2022, as they have done since 2015, while AISWEI and SOFAR entered the top 10 ranking. The top 10 global photovoltaic (PV) inverter vendors accounted for 86% of the market - an increase of 4% year-over-year, whereas the top 3 players captured 60% of the market share for shipments in 2022.

How did global PV inverter shipments grow in 2023?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market.

Who dominates the solar PV inverter market in 2021?

Second runner-up Growatt accounted for 7% of market share, replacing SMA which slid down to sixth position. Together, the top three vendors control over half of the world's solar PV inverter market. GoodWe jumped four positions to rank at number five in 2021 owing to large shipments to the Asia Pacific region particularly China and South Korea.

India Solar PV Market Size & Share Analysis - Growth Trends & Forecasts (2024 - 2029) ... MNRE approved a Production Linked Incentive (PLI) Scheme, namely, "National Programme on High-Efficiency Solar PV Modules", with an ...

The publisher's latest report "Solar Photovoltaic (PV) Modules and Inverters Market Size, Share and Trends

Leading shares of photovoltaic module inverters

Analysis by Technology, Installed Capacity, Generation, Drivers, Constraints, Key Players and Forecast, 2022-2026" offers ...

Leading examples Blue Angel, Photovoltaic inverters product group (Germany, 2012) o String and multi-string inverters with up to an output power of 13.8 kVA that are designed for use in grid ...

2024 Top 20 Global Photovoltaic Inverter Brands Revealed by PVBL. PVTIME - Renewable energy capacity additions reached a significant milestone in 2023, with an increase of almost 50% to nearly 510GW, mainly ...

Alternergy is a UK award-winning renewables wholesaler and distributor of Solar PV products and Battery Storage solutions. We supply a large portfolio of solar panels, inverters, mounting and ...

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Module Manufacturers was announced. The revenue of the top 10 module manufacturers exceeded 700 billion yuan and the ...

4 ???· With our solar PV coverage, available as part of the Global Clean Energy Technology service, you get six separate market trackers that provide forecasting and tracking of global ...

Solar buyers continue to gravitate to the top manufacturers in terms of market share, according to new global rankings released by Wood Mackenzie. Global top 10 solar photovoltaic (PV) inverter vendors shored up ...

The top five vendors - Huawei, Sungrow, Ginlong Solis, Growatt, and GoodWe - shipped more than 200 GWac and accounted for 71% of total global PV inverter shipments in 2022, growing 8% from 2021. Huawei's ...

Ensure the voltage from the solar panel array falls within the inverter's permitted voltage range to avoid damaging the inverter, which can void warranties. Grid-Tied vs. Off-Grid Systems. PV inverters are designed to cater ...

Our latest "Global Solar PV Inverter and Module-Level Power Electronics Market Share 2023" report reveals a buoyant market in 2023, with 48% year-over-year growth in global PV inverter shipments. We explored ...

Background With the rapid development of solar cell and photovoltaic module technology, the nominal power of PV modules now regularly breaks through from 400W+ to 500W+ and even to 600W+. The rapid ...
