

We integrate innovative controls and technology to ensure that our solar heating system works 100% on solar energy and maximum yield from the sun. We work with developers and end users seeking all possible opportunities to utilize ...

Kaltech Energy was established in 2009 to provide reliable solar energy solutions to encourage you to save energy as well as to make you conventional energy independent. Our founders are Electrical Engineers with combined experience of more than 50 years in Building Services, Design & Construction with International Consultants and Contractors.

We integrate innovative controls and technology to ensure that our solar heating system works 100% on solar energy and maximum yield from the sun. We work with developers and end users seeking all possible opportunities to utilize solar energy to save electricity, fuel and 100% independence from the grid power, reducing the overall carbon ...

We provide Solar water heaters, Solar Collectors, Solar Pumps, Solar Panels and Integrated solar Energy Solutions. We also provide, DEWA Approved solar on-grid & Off grid solutions, Design, Engineering and Project Management for all types of Solar Projects

Libya is focusing on developing its renewable energy potential, particularly solar and wind power, to reduce its dependence on oil and enhance energy security. The country's renewable energy efforts are supported by international partnerships with organizations like the EU, UNDP, and countries like Italy.
