Skyfri Group, a Norwegian fast-growing climate technology company that delivers a fully integrated technology platform to take care of solar power plants, grows into the US market. The company has established an office and assembly facility in Denver, Colorado. The move comes after Solarscada LLC, an innovative scada-developer founded by Greg ...

Skyfri offers a digital platform automating solar plant operations, maintenance, and asset management. Their goal is to make solar power the most accessible, smartest, and cleanest energy source. With their product, they transform the way the solar panels are operated globally.

Skyfri Intelligence (technology) and Skyfri Energy (Asset management and O& M) are two business units under Skyfri group. Skyfri Energy also uses Skyfri Intelligence technologies to make their day to day operations and maintenance proactive, predictive, more efficient, transparent, automated and hence reduces costs.

Skyfri is home to a team of solar asset managers, O& M managers, performance management experts, renewable energy investors and IPP executives. Our edge is global industry experience combined with digital solutions that enables superior value.

Avdelingsleder i Innovasjon Norge, Olav Ingebjørn Moe, var med å vurdere om Skyfri kvalifiserte til å finansielt tilskudd fra staten. Noe av det som ble avgjørende for å gi støtte, var at Skyfri presenterte en unik teknologi som kan gjøre solparker mer stabile og trygge.

Skyfri delivers SCADA-systems that are customized for solar power plants, and have a range of clients that has assets as small as 100 KW to 2.1 GW. The innovative systems delivered significantly reduce installation time, provides transparency and ...
