

# Maldives solar system price

How much does a solar project cost in Maldives?

In 2022, 63 investor expressed interest in the third 11 MW solar project in the remote islands of Maldives, and a record low price of 9.8 US cents was received. This is one of the lowest tariffs for any small island developing state (SIDS).

Will a 5 MW solar installation make Maldives a popular destination?

Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the airport island to Male and its satellite town of Hulhumale.

What are Maldives doing besides solar?

Besides solar energy, Maldives is setting up an 8MW waste-to-energy plant with assistance from the Asian Development Bank. They also have a pilot on wave energy and are mulling over project proposals on ocean thermal energy conversion, or OTEC. Maldives plans a push for electric vehicles and is seriously looking at the option of green hydrogen. Maldives is not just focusing on solar energy.

Should investors invest in sustainable solar projects in the Maldives?

In 2014, the first 1.5 MW solar project under ASPIRE only had four investors bids, and resulted in a high power purchase price (PPA) of 21 US cents per unit of electricity, indicating a lack of interest from investors in investing in sustainable projects in the Maldives.

What are the challenges facing solar projects in Maldives?

Challenges facing such projects include integrating solar with existing power sources on the grid, off-taker risk, weak procurement, and planning capacity. The objective of the ASPIRE project is to increase photovoltaic (PV) generation in Maldives through private-sector investment. Approved in 2020, the ARISE Project scaled up this process.

Where are floating solar systems located in Maldives?

The first floating solar system in Maldives went into operation in 2014 and is located in lagoon areas where there are no coral patches. Q: Are you still working towards the 20% renewables share target, as outlined in the Strategic Action Plan 2019-2023?

In 2020, the number of bids for the 5 MW project in Male increased to 25, and resulted in a PPA price of 10.2 US cents. In 2022, 63 investor expressed interest in the third 11 MW solar project in the remote islands of Maldives, and a ...

The solar PV system at the LUX\* Resort utilises all the available roof space and is expanded at sea with floating offshore SolarSea® platforms to reach the desired solar power production capacity. The system works in hybrid mode with the diesel powerhouse of the island, and reduces the diesel consumption of
