

Market Trends of Solar Power Generation

What is the global solar power market size?

The global solar power market size was valued at USD 253.69 billion in 2023 and is projected to be worth USD 273 billion in 2024 and reach USD 436.36 billion by 2032, exhibiting a CAGR of 6% during the forecast period. North America dominated the solar power industry with a market share of 41.30% in 2023.

What is the projected growth rate of solar PV market?

Registering a CAGR of 6%, the market is projected to exhibit staggering growth during the forecast period of 2024-2032. Which is the dominating segment in the industry? The solar PV segment is anticipated to hold the leading share in this market during the forecast period.

What was the value of the solar power market in 2023?

Fortune Business Insights says that the global market size was valued at USD 253.69 billion in 2023 and is projected to reach USD 436.36 billion by 2032. What was the value of the Asia Pacific solar power market in 2023?

How much has solar generation increased from 2014 to 2023?

o Total peak monthly U.S. solar generation increased by a factor of 8.8 from 2014 to 2023. Note: EIA monthly data for 2023 are not final. Additionally, smaller utilities report information to EIA on a yearly basis. Therefore, a certain amount of solar data have not yet been reported. "U.S. Total" includes DPV generation.

What is a solar market report?

With comprehensive historical market data, 5-year forecasts for the key global markets, as well as analysis of the segmentation between rooftop and ground-mounted systems, this report is an indispensable tool for the solar industry and energy stakeholders alike.

Which country has the highest solar power market share in 2023?

North America dominated the solar power industry with a market share of 41.30% in 2023. The global COVID-19 pandemic had been unprecedented and staggering, with solar power experiencing higher-than-anticipated demand across all regions compared to pre-pandemic levels.

An overview of the country's renewable power market, highlighting installed capacity trends, generation trends, and installed capacity split by various renewable power sources. Detailed overview of the country's ...

US power production has been becoming less water-intensive, with the amount of water required to produce power falling from 14,928 gallons per megawatt hour (gal/MWh) in 2015 to 11,595 gal/MWh in 2021. 61 This is largely due to a shift ...

Market Trends of Solar Power Generation

The Distributed Solar Power Generation Market was USD 130.80 Billion in 2022 and is likely to reach USD 240.47 Billion by 2031, expanding at a CAGR of 7% during 2023 - 2031. Report ...

Solar Photovoltaic (PV) Market Trends. ... This forces power generation companies to change their production pattern and adopt eco-friendly and clean resources. Key countries around the world are expanding their ...

The global solar power market is growing at a rapid pace, leading the global energy transitions, supportive government policies aimed at achieving emission reduction targets and enhancing ...

India Solar Energy Market Size & Share Analysis - Trends, Drivers, Competitive Landscape, and Forecasts (2024 - 2030) ... These schemes have a goal to increase the generation of solar ...

The five leading solar markets in 2023 kept pace or increased PV installation capacity in the first half of 2024, with China installing more than 100 GW dc and India installing more solar in the first half of 2024 than it did for all of 2023.

In a bifurcated renewable landscape, the solar market brightened in 2023, while wind faced sweeping challenges. The latter bore the brunt of project inputs, labor and capital cost pressures, interconnection and permitting delays, and ...

In Q2 2024, the US solar market installed 9.4 GW dc of capacity, a record second quarter for the industry. While installations declined 21% quarter-over-quarter, they increased 29% from a year earlier. Solar accounted for ...

This report highlights the growth trajectory and significant innovations driving the sector forward. Detailed firmographic data, investment patterns, and regional hubs show emerging trends such as photovoltaics, electrification, and ...
