

# Marshall Islands dian energy ltd

The Roadmap provides a strategic framework for the Republic of the Marshall Islands (RMI) electricity sector, to strengthen our role as a climate leader. This Roadmap will allow the RMI and our development partners to work together to achieve a common vision for the RMI electricity sector.

This profile provides a snapshot of the energy landscape of the Republic of the Marshall Islands, an island country and a United States associated state near the equator in the Pacific Ocean. Geographically, the country is part of the larger island group of Micronesia.

We are a boutique energy investment company headquartered in Company Complex, Ajeltake, Majuro, Marshall Islands. Founded by a team of young experts from over 10 countries, we specialize in identifying lucrative investment opportunities in the energy sector, especially within Latin America and Europe.

The future of the Marshall Islands electricity system depends on upgrading the electricity network, getting better at energy efficiency, and replacing diesel generation with renewable energy in the form of wind and solar. Most of all it depends on our people. Take a look at where we are headed.

"The Republic of the Marshall Islands (RMI) submitted its second NDC in 2018 at COP 24 in Katowice, making it the first country in the world to do so. The revised NDC set binding targets of reducing greenhouse gas emissions by 32 percent below 2010 levels in or before 2025 and by 45 percent before 2030.

Majuro, Marshall Islands - In a historic leap toward energy independence, the Republic of the Marshall Islands (RMI) has secured a game-changing grant equivalent to US\$60 million from the World Bank (WB), building on the momentum of its achievements of the WB-funded Sustainable Energy Development Project (SEDeP).
