

Marshall Islands distribuidor fotovoltaico

Clay Energy was proud to be the EPC contractor for this project by helping the Republic of Marshall Islands in their path to reducing greenhouse gas emissions. The system also consists of energy meters, protection equipment, outdoor/interior cabling between solar array, inverters, and main switchboard as per required standards.

Our solar projects are intended to provide useful services to those in need, especially in remote locations such as the Marshall Islands. We have been providing solar power systems to schools, hospitals, community halls, churches and homes all over the Marshall Islands.
