

Mayotte is no doubt the French overseas territory facing the most challenging energy transition. It has the highest cost of electric power generation, at nearly EUR350/MWh in 2021, and the most carbon-intensive production, with fossil fuels accounting for over 95%.

Countries that invest in renewable energy production face frequent opposition from local homeowners. Using a detailed housing transactions dataset covering the whole of the Netherlands since 1985, this column compares the overall impact that wind turbines and solar farms have on housing prices. It finds that tall wind turbines (over 150 metres) have a negative ...
