

Who makes Nordex wind turbines?

As one of the world's largest wind turbine manufacturers, the Nordex Group offers high-yield, cost-efficient wind turbines that enable long-term and economical power generation from wind energy in all geographical and climatic conditions. With the Delta4000 platform, the Nordex Group relies on tried-and-tested series-production technology.

What is a Nordex gamma wind turbine?

As of 2013, the third generation of Nordex wind turbines included two platforms, rated at 2.4 and 3.3 MW. In Europe, Africa and North America Nordex manufactures and sells the Gamma series, a product family comprising the N90/2500, the N100/2500 and the N117/2400. The N90/2500 is a turbine being developed for strong winds.

What is a Nordex delta4000 wind turbine?

The Nordex Group's product portfolio comprises innovative and efficient wind turbines for high-, medium and low-wind onshore locations. The various models in the Delta4000 series are adapted to meet specific market requirements and offer variable outputs ranging from 4 MW to the 6 MW area, with rotor diameters of up to 175 meters.

Where does Nordex manufacture nacelles & rotor blades?

In selected markets, the Nordex Group also operates as a project developer for wind farms. At production facilities in Germany, Spain, Brazil, the US and India, the Group produces nacelles, rotor blades, and concrete towers. The company has offices and branches in more than 30 countries.

Nordex SE is a European company that designs, sells and manufactures wind turbines. The company's headquarters in the German city of Rostock while management is in Hamburg. Nordex produces at sites in Germany, Brazil, India, Mexico and Poland and Spain. The main production facility is located at the headquarters in Rostock. [2]
