

NEC Energy Solutions (NEC ES) designs, manufactures, and integrates smart energy storage solutions for the electric grid and applications with critical power needs. Its megawatt-scale energy storage and control systems provide greater stability ...

NEC's M-Series Storage Disk Arrays for SAN and NAS applications is the perfect balance of performance, affordability and functionality for today's needs such as virtualization, cloud environment and power saving. Setup can be accomplished in 15 minutes or less. User-friendly GUI makes storage management and data handling easy.

To manage business in Sub Sahara area, such as sales, installation and maintenance service, technical support, training, etc, in connection with telecommunication, data center infrastructure, server storage solution, energy, ...

NEC, incursionó en el mercado boliviano por primera vez a través de un representante local, nombrando a Alejandro Franco, Arquitecto de Soluciones para NEC.NEC Corporation, es una compañía multinacional japonesa que proporciona soluciones IT (tecnologías de información) y soluciones de comunicaciones a empresas y a gobierno.

NEC Storage HS Series*, NEC's award-winning distributed grid storage platform, enables long-term data retention through scalability of performance and maximized capacity without the complexity and inherent limitations of legacy ...

Demands on Storage Units. Reduce the workload required for storage management by using virtualization technology; Efficiently manage data according to its usage frequency; Dramatically reduce the power consumption of storage units for environmental conservation and power saving; Ensure the continuous operations in the face of unforeseen failures

NEC Storage HS Series*, NEC's award-winning distributed grid storage platform, enables long-term data retention through scalability of performance and maximized capacity without the complexity and inherent limitations of legacy storage solutions. NEC Storage HS Series is capable of delivering lower storage capacity consumption by up to 95% or ...

Find company research, competitor information, contact details & financial data for Smart Solutions Bolivia S.R.L. of Cercado (Cochabamba), Cochabamba. Get the latest business insights from Dun & Bradstreet.

To manage business in Sub Sahara area, such as sales, installation and maintenance service, technical support, training, etc, in connection with telecommunication, data center infrastructure, server storage solution, energy,

managed service, safety & security and cloud service.

There are several types of energy storage technologies that can be employed to support Bolivia's energy transition, including batteries, pumped hydro storage, and thermal energy storage. Each of these technologies has its own advantages and disadvantages, and the choice of which to use will depend on factors such as the specific requirements ...

The NEC Storage M series enable quick response to the diverse needs of corporate and social information systems, help drive the creation of new value and solutions, and contribute to the development of next-generation ICT businesses.

Whether NEC's diverse line of storage disk array solutions or our award-winning distributed grid storage platform, we enable long-term data retention through performance scalability, maximized capacity and large-scale storage consolidation. Our storage hardware and software work to deliver cost effective and high reliability.
