How low can you go? One panel. 300 watts output, simply plug the microinverter into the mains socket. We supply a "VZPV" (Very Easy PV) package that does just that and includes all the paperwork to Guernsey Electricity. Visit our projects page to see our past installations.

Guernsey Electricity has installed some of the largest solar arrays in the Channel Islands which feed more than 600kW of renewable electricity into the grid for everyone to use. Guernsey Electricity is committed to providing an affordable and sustainable energy supply, while maintaining a responsible attitude towards the environment.

Este Kit Solar Off Grid com Bateria foi dimensionado para suportar um consumo da carga de até 3 dias sem sol e está pronto para ser utilizado. Ele pode gerar cerca de 3.200Wh (*considerando 5 horas de sol). A energia gerada em corrente contínua (CC) pelo painel fotovoltaico será armazenada na bateria em 12V (CC).
