

(ADPnews) - Nov 30, 2010 - French solar panels maker Tenesol, owned by oil group Total (EPA:FP) and electricity group EDF (EPA:EDF), has completed a 2.1 MWp ground-mounted photovoltaic (PV) installation on the New Caledonia island, southwest Pacific. The new facility, owned by Helios Bay, was connected to the grid in May 2010.

Since 2007, AMBI Energy SAS has designed, built and maintained photovoltaic solutions in New Caledonia and the Pacific. Our proven experience and know-how allow us to propose you efficient and reliable technologies, designed to last over time.

TotalEnergies will develop a series of photovoltaic and energy storage projects in New Caledonia in order to deliver decarbonized electricity via a 25-year renewable power purchase agreement (PPA) for the industrial operations of mining and metallurgy consortium Prony Resources New Caledonia.
