GSL ENERGY will offer 5 years on IP65 hybrid UL approved solar inverter and 10 years warranty on powerwall lifepo4 battery system. Client can install it in 10 minutes under of action of plug-and-play jobs.

Today, it's dropped, on average, to about \$3 per watt, with some systems producing energy at half that cost. This astonishing reduction is the result of making solar panels more efficient while, at the same time, reducing their costs. A parallel advancement was made with the batteries that store the energy produced by solar panels.

Nicaragua strengthens energy sustainability with the new solar energy project in cooperation with China. Nicaragua and the China Communication and Construction Corporation (CCCC) celebrated a historic agreement, after signing two key documents for the El Hato solar project, which will be carried out in the Latin American country.

Nicaragua welcomes first solar plant with battery storage. The El Jaguar photovoltaic plant, a 16 MW solar facility located in Malpaisillo, Nicaragua, has begun supplying electricity to the national grid. It features
