Is Norfolk Island a 'duck curve'?

Energy experts often point to so-called "duck curves" in the California market and in Queensland, due to the growth of solar, but Norfolk Island is well ahead- in fact, it is already dealing with the excess of solar output over demand that is predicted for South Australia, Western Australia and Tasmania in the next 10 years.

Does a rooftop solar system save you money?

Additionally, for homeowners, having a rooftop solar system--just like a renovated kitchen or a finished basement--has been shown to boost home valuation and shorten a home's time on the market. Pairing your roof replacement and installing solar can save homeowners an average of \$4,000.
