

According to the draft Law on Energy, operators of battery energy storage systems will enter the electricity market. North Macedonia published it in a package with the new Law on Renewable Energy Sources, which is set to introduce ...

With the production of home and industrial storage units for photovoltaic systems as well as batteries for electric mobility, BMZ manufactures the heart of the necessary infrastructure for the energy and transport turnaround.

In a significant development for the economic landscape of North Macedonia, ABEE has signed a groundbreaking agreement today for a new investment in the production of Battery Management Systems (BMS).

Upcoming legislation is set to introduce battery energy storage in North Macedonia alongside statistical transfers with other countries, energy communities and guarantees of origin. The government adopted the draft Law on Renewable Energy Sources together with the draft Law on Energy, separating the green segment for the first time.

According to the draft Law on Energy, operators of battery energy storage systems will enter the electricity market. North Macedonia published it in a package with the new Law on Renewable ...

Cetral Invest, the company of businessman Kocho Andzhushev, will be the first to bring large battery storage systems to North Macedonia for storing surplus electricity generated by renewable energy plants, BalkanEngineer has learned from Makfax .mk.

North Macedonia's significant growth in solar power capacity has led to an increase in the newly installed renewable electricity capacity. Thus, the surge in the production of electricity from renewables has caused a need for effective energy storage solutions to manage excess output and address fluctuations in demand.

According to the draft Law on Energy, operators of battery energy storage systems will enter the electricity market. North Macedonia published it in a package with the new Law on Renewable Energy Sources, ...
