Will Northvolt AB buy Novo energy?

However, fast forward two years and Volvo has released a statement saying that it has notified Northvolt that it will "invoke its redemption rights to acquire Northvolt's shares in Novo Energy". "This action follows a breach of the parties' shareholders' agreement where Northvolt AB has not fulfilled its financing obligations," the statement said.

Will Volvo take full ownership of Novo energy?

In a surprise move, the carmaker on Wednesday announced plans to invoke its redemption rights to take full ownership of the NOVO Energy project as Northvolt has failed to fulfill its financing obligations. "This action follows a breach of the parties' shareholders' agreement," Gothenburg-based Volvo said in a statement.

Will Volvo keep Novo energy as a battery factory?

Volvo stressed that it had a "diversified and resilient battery supply chain" and that its electric car rollout would not be affected. Experts said that should Volvo want to keep Novo Energy as a battery factory, only Asian manufacturers such as China's CATL, Japan's Panasonic or South Korea's LG were currently able to make cells.

Why did Northvolt stop donating more capital to Novo energy?

Northvolt, which is fighting to raise a rescue package in the coming days, said it had decided not to contribute more capital to Novo Energy and instead focus its funding on its sole current factory in Skellefteå; in northern Sweden, where it has struggled to ramp up production.

What is the partnership between Northvolt & Volvo Cars?

The partnership between Northvolt and Volvo Cars combines one of the most well-known and respected car brands in the world and a leading supplier of sustainable, high-quality battery cells and systems, dedicated to delivering the world's most sustainable lithium-ion battery.

When will Novo energy start production?

Groundworks for the first NOVO Energy gigafactory, with a potential cell manufacturing capacity of up to 50 gigawatt hours (GWh) per year, started in 2023. Production is scheduled to start in 2026.
