Where is numbat launching?

One of Numbat's first planned locations, in Feneberg. Image: Numbat. The German battery storage-integrated EV charging space had a busy July, with startup Numbat raising EUR10m-plus in capital and Volkswagen and JOLT Energy opening charging parks.

Who is numbat GmbH?

Numbat GmbH, a cleantech company, was established in Kempten (Allgäu) during February 2021. Our driving force is the dream of nationwide fast charging in Europe, all the while thinking of energy in a holistic sense and promoting a climate-friendly future. We invite you to meet our founders and team and learn the story behind the creation of Numbat.

Is numbat a sustainable solution?

Numbat is a holistic solution that emphasizes sustainability. As one of the most eco-friendly charging solutions on the market, our multi-lifecycle technology extends battery life. Additionally, two large screens can display DOOH (digital-out-of-home) advertising on a sustainable advertising medium.

How can numbat revolutionize the energy sector?

Maximilian Wegener and Martin Schall, tackled these questions and developed an innovative technology that aims to revolutionize the energy sector and promote the transition to cleaner energy. We had an idea for a new technology, Numbat, that is a sustainable and eco-friendly battery storage with an integrated fast-charging station.

What are the advantages of the numbat?

The following page explains the advantages of the Numbat in more detail: Numbat's sustainable charging technology combines 300kW fast charging station and 200kWh battery storage!

Is numbat a sustainable and eco-friendly battery storage?

We had an idea for a new technology, Numbat, that is a sustainable and eco-friendly battery storage with an integrated fast-charging station. As a high-tech startup, we are working on building a comprehensive fast-charging infrastructure in the rural Allgäu region in 2022.

The cleantech company Numbat was founded in February 2021 in Kempten (Allgäu) by the founders Martin Schall and Dr.-Ing. Maximilian Wegener. Numbat is a provider and operator of high-power charging solutions based in Kempten.
