

Oman solar group duyunov motor

What is Duyunov's Motors?

"Duyunov's motors" is a project aimed at commercialization of the unique "Slavyanka" combined winding technology. The technology allows the team of engineer Dmitriy A. Duyunov to design new generation electric motors used in electric transport, industry, agriculture, military sector, aviation, household appliances, medicine and other fields.

What is Duyunov's electric motor-wheel?

Become a member of a unique crowdinvesting project for international funding. Duyunov's electric motor-wheel is the first in the world induction motor with "Slavyanka" winding that has a unique combination of work capacity and power consumption.

How does OOO 'Sovelmash' fund the project 'Duyunov's Motors'?

Using the crowd investment mechanism and an extensive partner network, it organizes funding for the project "Duyunov's motors". SOLARGROUP is the co-founder of OOO "Sovelmash" with the 49.5% share. Later on, after reorganization of the enterprise into a public joint stock company, the shares will be exchanged to "Sovelmash" stock.

How is Duyunov's Motors funded?

The project "Duyunov's motors" is funded by means of crowdinvesting: this means that investments come from an unlimited number of private investors. The investor becomes a co-owner of the innovative business and can count on part of the company's profit by receiving dividends on his share. Any person from any place in the world can invest.

Who is Dmitriy Alexandrovich Duyunov?

Here the team of engineer Dmitriy Alexandrovich Duyunov will develop electric motors using the "Slavyanka" technology of any complexity, for various applications, according to the customer needs. In 2019, the Moscow government supported the innovative project, recognizing its significance and relevance.

How does Duyunov's motors work?

Investors in the project "Duyunov's motors" buy the investment shares of SOLARGROUP. Subsequently, they will be exchanged for the shares of "Sovelmash" by means of an assignment, and the owners of the shares will receive dividends or earn profit from selling their securities. Another co-founder of "Sovelmash" is the company "ASiPP".

"Duyunov's motors" is a project aimed at commercializing the unique "Slavyanka" technology. To accomplish this goal, the "Sovelmash" design and engineering technology department (D&E) is being built in Moscow, where combined winding electric motors will be developed.

Duyunov's hub motor is the first in the world induction motor with "Slavyanka" winding that has a unique combination of work capacity and power consumption. The new technology is based on the developed innovative technology of combined motor winding (a star and delta winding combined in parallel).

"Duyunov's motors" is a crowdfunding project for the developments of the Russian engineer D.A. Duyunov. Thanks to his technology the company is making the most efficient electric motors in the world. The prototype models of various motors for electric transport as well as general purpose industrial motors are ready and have already been tested.
