

Wadi Noor Solar Power Company(WNSPC) is the culmination of a shared vision between two passionate investors who are committed to Oman sustainable transformation and the global journey towards net-zero emissions.

We provide state-of-the-art technology in the fields of stand-by power systems and renewable energy solutions (On-Grid and Off-Grid). At Oman Solar Systems, we have the latest technology by which we can use natural resources and convert natural energy into power (electrical energy).

The Ibri II Solar Power Project is located in Oman. It is a large-scale solar power plant that was developed by the Oman Power and Water Procurement Company (OPWP) in collaboration with a consortium of companies, including ACWA Power, Gulf Investment Corporation, and Alternative Energy Projects Co..

Continental Shelf of Solar Technology (CSST), Oman established in 2015, is one of the most innovative Solar engineering company in sultanate of Oman located at Al khoudh, Muscat. CSST have realized that solar is having a good potential to ...

The "Ibri III Solar IPP", part of a series alongside the operational Ibri II Solar IPP, aims to contribute to Oman's solar power capacity. The Manah I and Manah II Solar PV IPPs are also part of this plan, with commercial launch dates set for 2025.

Under ideal conditions, Solar panels can convert about 15-18% of the sun's radiation into electrical power. Each module is rated by its DC output power under standard test conditions (STC), and typically ranges from 100 to 700wp.
