

Can solar energy panels be imported into Pakistan?

ISLAMABAD: The ministry of commerce on Monday amended Import Policy Order, 2016 to describe conditions for import of solar energy panels and related equipments into Pakistan.

Are rooftop solar panels becoming popular in Pakistan?

There has been a strong surge in domestic installation of rooftop PV panels in large cities of the country. Pakistan's private sector imported 350 MW of solar panels in 2013. For projects under 1 MW, net metering regulations came into effect on 1 September, 2015.

What does a certification mean for a solar module?

Basically, certifications per se do not tell much about the quality of a module. If you buy a solar module with IEC 61215/61730/61701 etc. certifications, it means that the certification-holding manufacturer managed to produce a few modules of that type that passed a standard's (e.g. IEC 61215) tests at the time of applying for certification.

Why are solar panels becoming more popular in Pakistan?

With the rising costs of electricity in Pakistan and unreliable grid supply, more industries and commercial organizations are turning to captive solar solutions. There has been a strong surge in domestic installation of rooftop PV panels in large cities of the country. Pakistan's private sector imported 350 MW of solar panels in 2013.

What are the certification regulations for solar & wind projects?

The Alternative Energy Development Board has issued simplified Certification Regulations for installers of solar and wind projects in the country in line with the vision of the present government's policy of 'Ease of Doing Business' and for the promotion of clean and green energy.

Does Pakistan need solar power?

Pakistan has tremendous potential to meet its power demand needs from renewable energy sources and, in particular, solar. Solar irradiance levels in parts of Pakistan, particularly in the southwest, are on par with the best in the world with global horizontal irradiance (GHI) values over 1500 kWh/m² in over 90% of the country's land area.
