

Photovoltaic panel color steel tile gallery

What are coloured solar tiles?

Coloured solar tiles in brick red and slate grey are a new addition to the range. They bring new possibilities in colour design and architectural integration of the solar roof.

What colour tiles go with a solar roof?

Our new solar tiles in brick red and slate grey are an excellent match for roofs clad with brown-red clay tiles and grey fibre cement tiles. The SunStyle solar roof has an extremely low construction height and can be integrated stylishly into any building.

What is volt solar tile?

"Volt Solar Tile is the ultimate solution for homeowners who want a seamless solar solution for their homes. Its durability and ease of installation are unmatched, making it a top choice in the rapidly growing clean energy market." Learn more about our state-of-art solar tile product, and make an impact in the realm of sustainability.

What are solar tiles made of?

The surface of the brick-red and slate-grey solar tiles is made from structured solar glass, optimised for light transmission, which improves the colour perception from different viewing angles. In addition to the signature diamond-shaped solar tiles, inactive tiles without solar cells are installed on areas without ideal sun exposure.

What is Metrotile eQube solar tile?

Metrotile are revolutionising the solar roof system, with a brand new, fully integrated solar tile entitled the 'Metrotile eQube Solar Tile'.

Why should you choose volt solar tiles?

WHY CHOOSE VOLT SOLAR TILES? Volt redefines clean-energy generation with its invisible solar tile system, integrating the latest solar technology into the roofing system for a seamless, undistruptive look for your home. Become a Volt Partner and offer cutting-edge solar tile solutions to your clients, empowering them to embrace responsible living.
