

Photovoltaic panel shipping guarantee

Do solar panels have a Smart Export Guarantee (SEG)?

The good news for solar panel owners is that large energy companies are obliged to pay for the excess energy that is exported, under the Smart Export Guarantee (SEG) scheme. What is the Smart Export Guarantee?

What is a solar panel warranty?

Solar panel warranties are more than just a piece of paper; they are a crucial safety net for anyone considering investing in solar energy. They offer a guarantee that you get the most out of your solar panels.

Are solar panel warranties a good investment?

Understanding and comparing solar panel warranties are crucial steps in your solar investment journey. They not only provide a safety net for your investment but also serve as an indicator of the quality and reliability of the product.

Are export tariffs a good idea for solar PV?

For homes with solar photovoltaic (PV) panels, export tariffs like the SEG are a great way to bolster your energy bill savings. In this article, we'll explore how the SEG works, the benefits for solar PV system owners, and how it's shaping greener living in the UK.

How much do solar panels cost to export?

Find out which energy companies have the best rates. The amount you can get paid for exporting energy from your solar panels varies from a paltry 1p to as much as 40p per kWh. That means that if you've got solar panels, choosing the best export tariff could earn you hundreds of pounds extra in payments every year.

Why do energy suppliers buy solar panels?

Energy suppliers buy them to show that the electricity they sell is renewable. Called FIT REGO Boost, Good Energy estimates that a 3kW rooftop solar array could earn around £10 a year from the scheme. Find out more about Good Energy's scheme. Which companies have Smart Export Guarantee tariffs?
