How are solar modules shipped?

Most solar modules travel thousands of miles from the manufacturing facility to the installation project site. Along the way,they are packaged,palletted,trucked,shipped on freightersand trucked again (and again).

How do I know if my PV modules have been shipped?

Before you unpack your modules,check the shipping labelto ensure you received the right modules. Once you unpack your modules,check the module frame serial number and model label against the shipping label. The serial number is the unique identifier of each PV module.

Can you walk on a LONGi Solar PV module?

DO NOTstand or walk on PV modules. Prior to beginning installation,review the Installation Manual for LONGi Solar PV Modules. Do not carry a module alone; always use two people to lift and carry. Do not drill holes in the frame of the module. In addition to invalidating the product warranty,this will also reduce

What if a container is unloaded on the unloading platform?

If the container is unloaded on the unloading platform,it is required to be used with the unloading platform or tooling. The height of the unloading platform and the height of the unloading tooling should be kept at the basic level with the bottom of the container (loading bottom plate),and the height tolerance should be controlled within ± 10 mm.

Where is the serial number on a PV module?

The serial number is the unique identifier of each PV module. A protected copy of the barcode is located on the front top-left corner under the glass and cannot be removed or damaged. The matching serial number is located on the frame and on the rear of the module.
