

Photovoltaic panels installed on the roof introduction fee

Do you need planning permission to install solar panels on your roof?

An increasing number of people are investing in solar energy. More and more homes are having solar panels, or solar tiles, installed on their roofs. Of course, with such installations, the topic of planning permission and building regulations often comes to the surface.

How much do in-roof solar panels cost in the UK?

If you're considering installing in-roof solar panels, you'll want to know how much solar panels in the UK cost. For an average 2 - 3 bedroom household, integrated solar panels cost somewhere between £5,000 - £6,000. As you can see, installing solar panels isn't cheap. Thankfully, there are several solar panel grants available in the UK.

Are in-roof solar panels a complete roofing solution?

Although sometimes mistakenly referred to as solar roof tiles, integrated solar panels are not designed to look like tiles or slates, so they aren't generally a complete roofing solution. So, when installing in-roof solar panels, you'll still need to account for other materials in your planning and calculations of in-roof solar panels costs.

Can you install solar panels on your roof?

Homes and businesses will be able to install rooftop solar panels more easily, under new rules announced today. Changes to permitted development rights rules will mean more homeowners and businesses will be able to install solar panels on their roofs without going through the planning system.

Are in-roof solar panels expensive?

Higher costs for an existing roof: While adding in-roof solar panels to an existing roof is possible, this is a more complex and potentially costly installation than on-roof panels. Exactly how much more you'll end up spending depends on the size of your roof and the duration of the installation process.

How much does a solar panel installation cost?

Generally, two installers will work together to install your solar panel system, and depending on its complexity, they can take up to 3 days to complete the installation. This means that you can expect to spend anywhere between £600 and £3,000 on labour costs alone.
