

# Photovoltaic support for tile roof

Are solar roof tiles a good option for your home?

If you want to benefit from solar power for your home but would love to preserve the aesthetics of a tiled roof, solar roof tiles might be the way to go. Sometimes called "invisible solar," solar tiles are also a great option for solar power upgrades to listed buildings or buildings in conservation areas.

What are the benefits of solar roof tiles?

**Aesthetically pleasing integration:** One of the significant advantages of solar roof tiles is their seamless integration with the roof. Unlike traditional solar panels, solar roof tiles blend in with the house's overall design, maintaining its aesthetic appeal. **Increased property value:** Solar roof tiles can enhance the value of your property.

Which solar roof tile brands are available in the UK?

Several reputable solar roof tile brands are available in the UK. Some popular options include GB Sol solar tiles, Tesla solar roof tiles, and Solecco solar tiles. The best choice for you will depend on factors such as your aesthetic preferences, budget, roof type, and energy goals. 1.

What are solar roof tiles made of?

Each solar roof tile contains solar cells, typically made from classic monocrystalline solar cells or thin-film PV cells. The solar cells within the tiles are composed of semiconducting materials, such as silicon, that can convert sunlight into an electric current.

How do solar roof tiles work?

Unlike traditional solar panels, which are mounted on top of existing roofs, solar roof tiles seamlessly integrate into the roof's structure, providing an aesthetically pleasing and efficient energy solution. They are also referred to as integrated solar panels. How do photovoltaic roof tiles work?

What are ergosun solar roof tiles?

Ergosun Solar Roof Tiles were among the first commercially available solar roof tiles, back in 2011. Designed by an engineer in Derbyshire, they have since been installed across three continents. They are large-format roof tiles that can have grey or terracotta colour-matched solar PV modules installed to give the most discreet solar array available.

Marley SolarTile roof panels replace standard roofing tiles or slates, giving you the benefit of both a weatherproof roof covering and electricity generating solution. They enhance design possibilities, creating sleek aesthetics and ...
