

Where can a company bid for solar in the UK?

Companies can bid for Solar tenders in the UK from thousands of sources including all official websites, UK municipal websites, UK newspapers and journals.

Where can I find UK solar tenders to bid on?

You can bid on UK solar tenders on GlobalTenders, the biggest and best online tendering platform since 2002. Globaltenders.com offers an unmatched database of solar tenders from UK, more than any other platform.

What support is given to the winning bidders?

The support that is granted to the winning bids can be in the form of FIT, FIP, capacity payments, certificate prices or investment grants. RES tenders can be technology neutral or focussing on a specific RES technology (e.g. solar PV or offshore wind energy).

Why are solar photovoltaic (PV) tenders becoming more popular?

Protecting the environment and developing the green economy is becoming a focus for businesses and property owners as well as utilities and governments. This is driving an increase in the number of solar photovoltaic (PV) tenders being issued to award contracts for project construction and maintenance.

How much does a solar subsidy cost in Victoria?

The current subsidy value of A\$1,850 for solar panel installation, \$1,000 for solar hot water systems and \$4,174 for solar batteries will be in place until June 30, 2021. Solar Victoria is working with the industry to introduce a similar rebate program for small businesses.

Where can I find a tender for a solar project?

The Bidstat website aggregates tender listings from the OJEU TED database, the UK Contracts Finder and the new Find a Tender service. The state-owned Solar Energy Corporation of India publishes tender listings and results for government projects, sorted by the submission deadline.
