

Price list of solar power battery

How much does a solar battery cost in the UK?

Solar battery prices in the UK range from £3,500 to £10,000, yet they offer a dependable power source during dark winter nights by storing excess energy from the daylight hours. Our comprehensive guide ensures you have the necessary insight on solar battery prices, grants, and savings opportunities to make an informed decision confidently.

How much does a 5kwh solar battery cost?

The average cost of a 5kWh solar battery on its own is roughly £5,000, including the price of installation and an inverter - but this figure will vary based on multiple factors, such as the quality of the battery and the complexity of the installation. A 10kWh battery costs around £7,000 by itself, on average.

How much does it cost to install a solar battery?

The price of installing a solar battery falls by around £2,000-£3,000 if it's installed at the same time as solar panels. The price of the inverter is already folded into the total amount of a solar panel system installation, and adding a battery doesn't involve much additional labour cost either.

How much does a solar system cost in the UK?

When factoring in solar panel costs in the UK, the average 4kW solar system with battery price, for a 3-bedroom house, could reach £13,000 to £15,500. On the other hand, pairing a 5kW solar system with a battery can cost around £16,500 - £18,500. As you can see, the prices increase the larger your solar system size is.

How much does a 10kwh battery cost?

A 10kWh battery costs around £7,000 by itself, on average. If you add a 5kWh battery onto a solar panel system installation, its price generally falls between £2,000 and £3,000, as you're already paying for the labour and an inverter. A 10kWh battery costs £4,000-£5,000 if it's part of a wider solar & battery project.
