Who is Redeux energy?

Redeux Energy is a utility-scale solar and storage development company. We are experts in transforming greenfield, brownfield and industrial lands into renewable power projects that create new revenue streams, meet ESG goals, and support local economies and workforces.

What does Redeux Energy do?

Redeux Energy specializes in early- and mid-stage project development where they navigate the challenges and risks of land acquisition, project engineering, interconnection, permitting, power offtake, and financing.

Where is Redeux developing solar & battery storage projects?

Redeux is developing multiple solar and battery storage projects across farm sites in Arkansas and Mississippi totaling approximately 2,800 acres. All within the Midcontinent Independent System Operator (MISO) system.

Who are Redeux' financial sponsors?

Redeux's lead financial sponsors include Cathexis Holdings LP, a multi-billion-dollar private equity investor with significant real estate holdings, and Thoroughbred Holdings, a private equity investor and operator focused on energy, infrastructure and natural resources assets.

Why did FPI buy Redeux Energy?

FPI saw this transaction as a win for both parties because it enabled them to expand their renewable energy portfolio, secure long-term, stable income streams, and provide attractive returns to their shareholders. Working with Redeux Energy was also a positive experience for FPI, as they found the Redeux team to be professional and easy to work with.

Redeux Energy Partners LLC, a leading utility-scale solar and energy storage development company, today announced the sale of a 450 MWdc project portfolio to Pine Gate Renewables, a developer and owner-operator of utility-scale solar and energy storage projects across the United States. The portfolio is comprised of three projects located...

Redeux Energy is pushing to expand its 2 GW solar-and-storage pipeline in the southeast, Texas, and in the Western Electricity Coordinating Council (WECC) market. The bulk of its 2 GW portfolio distributed across the Midcontinent Independent System Operator (MISO), but

Redeux Energy Partners has sold its hybrid solar and battery storage development project to Scout Clean Energy. The project, a 200 MW solar array and 40 MW, four-hour battery energy storage array, is advancing through MISO's interconnection queue.
