

With a potential of 4.5 kWh per m² per day and approximately 5 peak sun hours, solar energy has a huge potentiality in Rwanda. Currently, Rwanda's total on-grid installed solar energy is 12.050 MW originating from 3 solar power plants namely Jali power plant generating 0.25MW, Rwamagana Gigawatt generating 8.5 MW, and the Nasho Solar plant ...

Our 12V solar panel is engineered to withstand harsh weather conditions, ensuring reliable power generation year-round. It features high-quality photovoltaic cells that efficiently convert sunlight into electricity, providing a sustainable energy source for a variety of needs.

Solar home systems The Rural Electrification Strategy in Rwanda approved in June 2016 outlines strategies through which Rwanda's households could "have access to electricity through the most cost effective means by developing programmes that will facilitate both the end users to access less costly technologies and increase private sector ...

A Solar Home System (SHS) is a small-scale, autonomous electricity supply for households that are off-grid or have unreliable access to energy. It generates electricity from sunshine and stores the electricity in a battery for consumption during the night or cloudy days.

We are an EPC company based in Kigali, Rwanda, since 2005. We specialize in on-grid and off-grid solar energy systems, electrical installations and energy audits. For the past decade, we have immersed ourselves in understanding and solving the energy challenges of those in East Africa.

Energy Private Developers (EPD) has currently registered over 40 solar companies who have invested in Solar Home System (SHS) business. SHS kits Capacities available on Rwandan market are those of 12W, 20W, 40W, 50 W, 100W, 120W, 200W and 300W with average price per a kit of 67,678 Rwf.

SOLEKTRA is a leading provider of clean renewable energy solutions such as Solar Home Systems, Solar Street Lights, Solar Mini Grids, Smart Solar Irrigation, Water Solutions and other groundbreaking technological solutions.
