

At Ampinity Energy, we are dedicated to revolutionizing the energy sector by providing innovative, sustainable, and efficient energy solutions. Our comprehensive product portfolio includes cutting-edge technologies designed to meet the diverse energy ...

The Energy Delivery Plan provides a roadmap for phased delivery of improvements in the energy sector on St Helena, particularly to support plans for energy transition on St Helena. It supports the objective of reaching 80% electricity generation from renewable energy by 2027/28.

Ampinity's PEM Electrolyzers offer high efficiency in hydrogen production, with energy conversion rates exceeding 80%. This efficiency ensures cost-effective and sustainable hydrogen generation. Designed for long-term use, our PEM Electrolyzers feature advanced materials that withstand continuous operation.

St Helena's energy strategy will aim to improve the social and economic well-being of its population, and minimize the impact on the environment. It will increase the production of energy through renewable sources, and reduce the island's reliance on imported fuels, increase fuel security and prize stabilization Deliverables of the strategy 12.

Among the pioneers propelling this vision forward, Ampinity Energy emerges as a front-runner, innovating and leading the development of hydrogen infrastructure. Our journey is not just about creating an alternative energy source; it's ...

The St. Helena project started in 1998, when three Lagerwey 18/80 turbines were installed on the island. In 2009, Wind Energy Solutions (WES) increased the number of turbines to a total of six by adding three WES80 80 kW wind turbines.

This document sets out a plan for phased delivery of improvements in the energy sector on St Helena, particularly to support plans for energy transition on St Helena. The Energy Delivery Plan recognises that globally countries are making every effort to reduce

At Ampinity Energy Pvt Ltd, we are dedicated to revolutionizing the energy sector by providing innovative, sustainable, and efficient energy solutions. Our comprehensive product portfolio includes cutting-edge technologies designed to meet the diverse energy needs of modern industries and households.
