The energy consumption levels of buildings in the United Arab Emirates (UAE) are among the highest in the world. One of the main reasons for this energy consumption is the need to cool buildings due to the hot climate of the UAE. As a large part of the heat accumulated inside buildings comes from windows, in this study, the effects of window size and direction in ...

The United Arab Emirates (UAE) has the world's seventh largest proven oil reserves (1) and the sixth (2) largest natural gas reserves, making the country a critical partner and responsible supplier in global energy markets. Although a mainstay in the economy, oil exports account for about 25% of the UAE's gross domestic product, as a result of government policies designed ...

Launch aligns with the "Make it in the Emirates" initiative and boosts in-country value; Abu Dhabi: Arab Development Establishment (ADE) and Schneider Electric, a leader in the digital transformation of energy management and automation, today officially launched their joint venture manufacturing facility in Abu Dhabi, TAQANA Energy Solutions.
