St. Maarten faces significant challenges in transitioning to 100% renewable electricity due to its limited space, lower wind speeds, and frequent hurricanes. The island's small and hilly terrain makes large-scale solar and wind energy installations difficult, as many potential locations are already used for tourism and housing.

The consultancy identified solar PV installations as the most practical and viable option for the island's transition to cleaner energy. Key milestones include installing solar PV systems on public buildings and carports by 2025, which ...

* Commercial, residential and marine generators service * Water-makers, wind generators, solar panels and more * Tool services and repairs including Milwaukee and Makita * Starter Motor and Alternators services and repairs * Virtually any electrical needs you have - just ask! Address: 29 Wellington Rd. Cole Bay, St Maarten
