

Solar Energy Storage Lantern Light Bulb

What are solar lightbulb lanterns?

These beautiful solar lightbulb lanterns are a gorgeous new take on solar powered outdoor lighting. In the day they'll soak up the sun and at night they'll emit white light. Their handy hanging mechanism means that you can clip them wherever you like (as long as they catch the sun!)

What is a solar lantern?

Solar lanterns: LED bulbs housed in lanterns, designed to be hung up or freestanding on a table or patio. Solar lights are powered by internal rechargeable batteries, charged through the day by a solar panel. The brighter the day, the more power is stored by the battery and the longer the light will shine.

Why should you choose decorative solar lights for your garden?

Explore our beautiful range of decorative solar lights to add some fun and character to your garden. Garden lighting is a must so you can enjoy spending time in your garden after dark during the warmer months, and it can go a long way towards creating the desired ambience in your outdoor space.

How can solar energy be used in the garden?

Solar energy can be used in the garden to power simple mechanisms like the water pumps in solar water features or - in this case - light bulbs, to make solar lights. If you're updating your social space, find inspiration with our round ups of the best garden furniture, parasols, garden loungers, deck chairs, and hammocks.

What kind of Lights do you use on a garden?

Stake lights: These tend to be spiked stakes with bulbs at the top that provide low-level lighting, ideal for guiding the way along a path or softly lighting flowerbeds. Solar lanterns: LED bulbs housed in lanterns, designed to be hung up or freestanding on a table or patio.
