

Who makes the best solar panels?

We compared manufacturer data, independent reviews, and third party accreditations for all 322 available solar panel models on the market. According to our findings, the brands with the best solar panels include REC Group, Sunpower, and AIKO.

Are solar panels a good choice for your home?

Solar panels are a popular renewable energy system for UK homeowners, self builders and renovators. In fact, over 220,500 solar panel installations were completed in 2023, according to data from the MCS (Microgeneration Certification Scheme). But how can you be confident you're buying the best solar panels for your home and lifestyle requirements?

Are SunPower solar panels reliable?

Sunpower panels are popular and considered the most trusted brand in North America. See the detailed SunPower solar panels review. REC produces high-quality, reliable panels, which are a very popular high-end choice among solar installers, notably the Alpha Pure series.

Should you buy a solar PV system for your home?

Well-chosen solar panels can provide a reliable source of renewable electricity for decades, helping to slash your electricity bills and cut your carbon footprint. But buying an inappropriate solar PV system for your home could leave you out of pocket.

Which solar panel is best?

The SunPower Maxeon 6 AC is the best all-rounder in our test. It excels in the key areas of efficiency and warranty, and also performs well on power, heat resistance and eco-friendliness. The panel's efficiency rating puts it in the top 10% of all those we tested, enabling it to make the most of limited sunlight.

Do solar panels fit on my home?

Typically, your chosen installer will buy the panels to fit on your home. Some only install solar panels from one brand, while others may install panels from a few brands. They may suggest a particular brand depending on your requirements.
