

Solar Power Light Live Broadcast

What is spaceweatherlive?

Our organization promotes these scientific branches onto the world wide web with websites as this one. Give your support for our organization by making a donation. SpaceWeatherLive.com is a near live website where you can follow space weather from the Sun to Earth and know exactly when you can see aurora.

Why are there so many Aurora webcams?

Only during heightened solar activity can strong geomagnetic storms shift auroras further from the polar regions and surprise skywatchers at lower latitudes. Lucky for us, there are many aurora webcams at our fingertips, poised to capture the northern lights wherever they may appear. -- Aurora colors: What causes them and why do they vary?

Where can I watch the Northern Lights?

Lights Over Lapland is a family-run aurora tour company in Abisko National Park, Sweden. They also have numerous virtual aurora tours to choose from so you can experience the wonder of the northern lights from the comfort of your own home. You can watch the northern lights from Levi, Finland, courtesy of Starlapland / Samuli Korvanen.
