Solar battery dry cell Italy

Renewable developer Sonnedix is increasing its solar power capacity in Italy with a series of acquisitions, its CEO told Reuters, adding the company was also looking at opportunities to develop...

Trina Storage was contracted by Trinasolar ISBU for the provision of the battery energy storage system, representing the first time the former has delivered a utility-scale energy storage project in Italy.

All interviewed agreed that battery storage projects located in the South, where the bulk of Italy"s solar PV pipeline is located, would focus on time shifting, while the North might be more focused on grid services.

Italy has recently ratified a long-term contract support mechanism for storage that is set to unlock a wave of new investment. The driving factor behind this new support mechanism is the scale of Italy's solar deployment.

When it comes to backup solar energy storage and backup power, the choice often boils down to lead-acid or lithium (LiFePO 4) batteries. Discover has a both Lithium and Dry Cell AGM batteries optimized for renewable energy storage.

Discover® DRY CELL Solar Energy Storage batteries outperform traditional flooded, AGM, and Gel deep-cycle batteries, and promote resilience in on-grid and off-grid applications, particularly in regions with poor infrastructure and unreliable power.
