

Solar battery utility Cayman Islands

What is the first commercial solar project in the Cayman Islands?

The 5MW Solar Farm is the first commercial solar project in the Cayman Islands. It was completed and commissioned in June 2017 and is located on a 20-acre site in Bodden Town, Grand Cayman. The Farm comprises 21,690 poly-crystalline photovoltaic (solar) modules each with a DC-rated capacity of 305 watts.

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

Are solar panels duty-free in Cayman?

However, renewable energy equipment, such as solar panels, are in fact duty-free for residential homeowners. Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery.

Who produces electricity in the Cayman Islands?

Electricity in the Cayman Islands is produced by the Caribbean Utilities Company, Ltd, which relies on imported diesel fuels. Caribbean Utilities Company, Ltd has 17 diesel units, one gas turbine, and two steam turbines to produce electricity. CUC generating units boast of 161 MW.

How much does electricity cost in Cayman Islands?

Cayman Islands, March 2023: The price of electricity is 0.414 U.S. Dollar per kWh for households and 0.376 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.
