

Solar container system Dominica

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

Are off grid solar containers reliable?

Solar equipment is very reliable but occasionally parts may fail so there is need to monitor and solve any problems. Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

250kW solar charge controller: PCS250 1: 250kW battery inverter: Isolation Transformer 500 1: 500KVA
Isolation Transformer: Bypass 250 1: Switch between on-grid and off-grid: EnerLog 1: ...

Since 2020- Targeting solar electricians on and off island; Be it in Dominica or on other Caribbean islands. Or for £; hands On £; customers willing to save by £; Doing it themselves £;. We deliver a pre-designed, pre-mounted and wired, pre-tested solar kit. Save on installation costs!

In 2007 Sustainable Earth Inc. was incorporated in Roseau - Commonwealth of Dominica - with the charter to design, promote, install and maintain solar, wind and micro-hydro systems throughout the Caribbean basin.

Based in Dominica, we offer products, installation and maintenance services. We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact ...

Dominica has a very high solar potential and set a renewable energy mix target of 100% by 2035. Presently Dominica's energy mix is comprised of 37% renewable energy on the public grid. Its electrical demand peaks at 13MW and its electricity prices are high relative to ...
