

Solar electric energy systems Canada

What types of solar power systems are available in Canada?

Solar power equipment, complete solar power systems, and turnkey solar power solutions for Canadian homeowners, commercial businesses, agriculture, remote applications, and more. Off-grid, grid-tied, and hybrid solar power systems.

Why do Canadians need solar power?

We've been enabling Canadians and their families for years to power their lives by harnessing the power of solar energy. Essentially becoming their own electrical provider, they've enjoyed freedom from outrageous distribution charges and other services they either don't utilize, or should be responsible to pay for.

Who is solar solutions Canada?

Solar Solutions Canada Inc. partners with architects from design to execution, integrating stunning photovoltaic features into buildings. Our architectural solar applications include curtain walls, skylights, awnings, and more, emphasizing energy efficiency and sun orientation.

Can I use solar power in Canada?

Some jurisdictions in Canada have strict requirements, others are completely relaxed. Once you have a handle on what you can and can't have, decide exactly what you will power by electricity, or gas, propane etc. Any item that makes heat is not candidate for solar, this normally includes cooking, clothes drying. Also whole house air conditioning.

What is included in a Canadian Solar Home system?

We offer Canadian Solar home systems that include everything needed to get the job done in a few days - and save a bundle. Solar kits include Canadian solar panels with 25 year warranty, grid-tied AC Inverter, rooftop mounting racks, wiring, cables, hardware, step-by-step instructions and permit-ready plan.

Who carries Canadian Solar?

Solarwyse carries Canadian Solar, the global leader in the solar industry. Beginning in 2001 in Ontario, Canada, Canadian Solar quickly rose to the top of the solar market.

SkyFire Energy is Western Canada's leading solar panel installation contractor. We design and install grid-connected solar power systems from our offices in Calgary, Edmonton, Regina and Penticton/Kelowna.
