

Solar energy team Colombia

Akuo Colombia is proud to offer hybrid solutions - combining photovoltaics and storage to existing diesel generators - which are instrumental to achieve one of the targets in the country's non-interconnected areas. Our team of 6 people is ...

Colombia is extending the use of solar energy to agricultural communities located in remote rural areas. With an investment of 15.25 billion Colombian pesos (approximately US\$ 3.7 million), the department of Guainia, ...

En PV Solar Energy de Colombia SAS, nos dedicamos a liderar el camino hacia un futuro más sostenible mediante soluciones innovadoras en energía solar fotovoltaica. Nuestro compromiso es proporcionar energía limpia y eficiente a hogares, empresas e ...

Colombia is extending the use of solar energy to agricultural communities located in remote rural areas. With an investment of 15.25 billion Colombian pesos (approximately US\$ 3.7 million), the department of Guainia, located in the Orinoco region near the Venezuelan border, is benefiting from three agrovoltaic energy communities that will ...

The Shangri-La solar project, initially developed by Rayo Energia and Black Orchid Solar, will be Atlas Renewable Energy's first solar project in Colombia, with an installed capacity of 201 MWp contributing to its goal of reaching 1 GW of contracted projects in the Andean country.

Renewable Energy Colombia engineers select the best team for your project. Our strong relationships with America's best solar installation companies ensure your system is built efficiently, economically, and completed on time.

We generate hundreds of thousands of MWh of clean and sustainable energy avoiding the emission of millions of tons of CO2 into the atmosphere. We are aware that we compete with other energy sources, we are sure that the future ...
