

Welcome to Solar Energy Caribbean! Specializing in Grid-tied and Off-Grid solar PV systems with battery storage for Residential and Commercial properties in Sint Maarten NV, Saint Martin ...

o Preliminary phase one solar opportunities identified across a diverse set of installation options including ground mount, rooftop, canopy, and floating arrays o GridMarket will facilitate and procure a turnkey solution that will provide the national utility, NV GEBE, with a comprehensive grid optimization plan

Solar Energy Caribbean offers reliable solar power solutions across the Dutch & French Caribbean, including Sint Maarten, Saint Martin, Saint Barthélemy, Saba, and Trinidad & Tobago.

Rapidly scaling up solar PV installations will lower electricity expenses for consumers and increase the reliability of the island's power supply while contributing to St. ...

Bouygues Energies & Services, a subsidiary of Bouygues Construction, built the thermal power plant on the Caribbean island of St Martin. The design-build contract signed with EDF comprised engineering studies, procurement, ...

Solar energy: Lorentz solar pool & well pumps; Residential/Commercial solar systems off grid, hybrid or grid tie systems; From our base in Colebay, we have provided solar services in and around St Maarten and St Martin since 1992, whilst supplying solar parts and ...

Rapidly scaling up solar PV installations will lower electricity expenses for consumers and increase the reliability of the island's power supply while contributing to St. Maarten's overall sustainability goals, the report concluded.

At Solar Tech Caribbean, we are dedicated to revolutionizing the way you power your life. Our mission is to provide cutting-edge solar solutions, seamless Starlink installations, and convenient EV charging services tailored to meet the unique needs of Sint Maarten/Saint Martin.

As the world grapples with the challenges of climate change, this tropical paradise is harnessing the power of the sun to transform its energy landscape. In this blog post, we will explore the untapped potential of solar energy on the island and how it is playing a pivotal role in shaping a sustainable future.

Bouygues Energies & Services provided a complete turnkey design & build proposal for EDF's new thermal power plant in Saint Martin: Feasibility study: in partnership with EDF teams; Design: use of 3D technology; Construction: Works spanning two years; Commissioning: supervision of the plant is carried out using a SCADA system.

Solar pond power plant Saint Martin

Bouygues Energies & Services, a subsidiary of Bouygues Construction, built the thermal power plant on the Caribbean island of St Martin. The design-build contract signed with EDF comprised engineering studies, procurement, transport and the commissioning of the plant. It now provides power for the French half of the island.
