Why did Frontier Energy buy a 50 MW solar project in Sierra Leone?

Commenting on the transaction, Lars Tejlgaard Jensen, Investment Director and Partner, Frontier Energy stated: "The 50 MW solar project in Sierra Leone stands as a testament to the project development and delivery capabilities of Frontier and Planet One.

How many solar mini-grid sites are there in Sierra Leone?

In 2020 Power Leone signed an MOU with the Government of Sierra Leone to construct and operate 40 solar mini-grid sites with 1.4 MW capacity across rural Sierra Leone. In 2024, Sierra Leone is constructing and commissioning 17 of these mini-grid sites (800 kW).

How much did Frontier Energy Invest in Planet Solar?

Development Finance Institutions, British International Investment ("BII"), FMO, and Proparco, and renewable fund manager Frontier Energy today announced a co-investment of over \$52 million for Planet Solar, a greenfield 50MW solar power project in Sierra Leone, developed by Frontier Energy and Planet One.

Will a new power plant increase electricity supply in Sierra Leone?

Overall, the facility is expected to raise the operational electricity supply in Sierra Leone by about 30%. According to the statement, only 23% of the population of the country currently has access to electricity.

Why is co-investment important in Sierra Leone?

The co-investment enables the development of a critical project that stimulates investment in renewable energy- responding to the urgent need for access to clean, affordable and stable power. The renewable energy potential in Sierra Leone is abundant, primarily in hydropower, wind and solar resources.

How many people in Sierra Leone have electricity?

According to the statement, only 23% of the population of the country currently has access to electricity. Sierra Leone is one of the priority countries of the Africa Resilience Investment Accelerator initiative, through which development finance institutions join forces to unlock investment opportunities in transition states in Africa.

Alongside renewable fund manager Frontier Energy, BII and other DFIs including FMO and Proparco invested over \$52 million in Planet Solar, a greenfield 50 MW solar power project in Sierra Leone, which is expected to increase electricity supply by 30 per cent.

A consortium of financial institutions last week announced they co-invested \$52 million to help finance the development of a 50 MW greenfield project in Sierra Leone titled Planet Solar ...
