Does PG solar work in Switzerland?

Embark on a journey towards energy independence with PG Solar. Designed specifically for Swiss homes, our rooftop solar solutions put the power back into your hands. Schedule your free consultation now and redefine your energy future. How much does a solar installation cost in Switzerland? What kind of maintenance do solar panels require?

Who makes Swiss solar modules?

SWISS SOLAR AG manufactures high-quality solar modules and is leading and globally active technology company. SWISS solar modules are engineered in Switzerland and meet the highest quality standards. As an internationally recognized premium brand.

Why should you choose a solar rooftop system in Switzerland?

Join Switzerland's clean energy revolution. With solar rooftop installations, reduce your carbon footprint and contribute to a greener future, all while enjoying a continuous supply of home-grown energy. Our on-roof solar systems are designed to harness maximum solar energy.

How much does a solar panel cost in Switzerland?

For a standard villa with a panel surface area of 50 m<sup>2</sup> and a 10 kWh battery, the average price is around CHF 22,000, after deduction of subsidies and tax allowances. How long does it take to recoup your initial investment in a solar system? What are the advantages of a battery-powered solar system for my home in Switzerland?

Can solar panels be installed in Switzerland?

Typically, solar panels in Switzerland are mounted on existing infrastructure like mountain huts, ski lifts, and dams, with larger-scale installations in the Alps remaining rare. On September 10, 2023, 54% of Valais voters rejected Alpine solar project proposals due to environmental and aesthetic concerns.

How much does a Volta Swiss solar installation cost?

Case study of a Volta Swiss solar installation in the Lausanne region: 37.3 m<sup>2</sup> photovoltaic installation with 10 kW intelligent hybrid inverter and 10 kWh LiFePO<sub>4</sub> storage battery for a 3-person family villa, with air/water heat pump heating system, swimming pool and charging point for hybrid car. Total cost of installation CHF 25,400.00.
