

Bosnia and Herzegovina's southern region is primed for "huge" utility-scale solar development, Assistant Professor Farooq Sher tells pv magazine. He came to this recent conclusion after...

Greenstat's first solar power plant in Bosnia Herzegovina has reached an important milestone. The Norwegian company said the Petnjik photovoltaic system has transitioned from the construction phase to testing.

The Ruder Boskovic Energy Park is planned as an intelligent, hybrid system that will comprise 10 wind turbines with an individual capacity of 6 MW and photovoltaic panels with an overall capacity of 20 MW, the request ...

The paper presents the optimization of photovoltaic systems to cover the electricity needs of a typical household for two climatic regions in Bosnia and Herzegovina, whose representatives are the cities of Sarajevo and Mostar. The solar potential was measured and...

The abundant sunlight resources can be harnessed through large-scale solar PV projects and small-scale rooftop solar systems. With the right investment and policies, solar development could be a game-changer for ...

The abundant sunlight resources can be harnessed through large-scale solar PV projects and small-scale rooftop solar systems. With the right investment and policies, solar development could be a game-changer for BiH's energy sector.

Abstract: This paper describes the current state of photovoltaic plants (PV) in Bosnia and Herzegovina (B&H). It describes the ongoing trends in this domain and the ongoing legislation. It gives a certain insight of the future development in this ...
