For the future solar power plant, Solen will finance, install and operate it. The company will sell its output to the Gabonese Water and Energy Company (SEEG) for 25 years under a power purchase agreement (PPA).

Solen SA Gabon had signed a framework agreement with the government of Gabon back in March 2022 to construct a 120-megawatt peak (MWp) solar photovoltaic project in Ayémé Plaine, a region about 30 kilometres from the capital Libreville.

Gabon has inaugurated its first utility-scale solar project. The Ayémé PV plant is located in the Plaine-Ayeme area of northwestern Gabon, around 30 km from the country's capital, Libreville.

Solar Turbines provides the Social Security Administration (SSA) and, if necessary, the Department of Homeland Security (DHS), with information from each new employee's Form I-9 to confirm work authorization. Federal law requires all employers to verify the identity and employment eligibility of all persons hired to work in the United States.
