

What is the Solomon Islands energy project?

The project will support the Solomon Islands government to boost renewable energy generation and increase access to grid-supplied electricity, while reducing reliance on expensive, imported fossil fuels.

How many Solomon Islanders will benefit from solar energy?

WASHINGTON D.C., July 5, 2018 - More than 9,300 Solomon Islanders will benefit from new or improved electricity services, including renewable energy sources such as solar, through a new project approved today by the World Bank's Board of Executive Directors.

Why is access to energy important in the Solomon Islands?

"Access to energy is very important to increase the quality of life of Solomon Islanders and for the development of businesses," said Bradley Tovosia, Solomon Islands' Minister of Mines, Energy and Rural Electrification.

How long do solar panels last in Solomon Islands?

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems.

What is the Asian Development Bank doing in Solomon Islands?

The Asian Development Bank is working in partnership with the Government of Solomon Islands and Solomon Power to convert electricity networks in five provinces almost entirely to solar power. This project involves the Asian Development Bank in putting a grid-connected solar power plant into operation by SIEA.

There is no feed-in tariff in the Solomon Islands. Solomon Power may require that no power be exported back into the grid in some circumstances. Standby Tariffs Solomon Power charges a maximum demand for the connection of solar arrays to the grid. This is to ensure that there is adequate capacity reserved in the grid for providing backup

Solomon Islands, [7] also known simply as the Solomons, [8] is an island country consisting of six major islands and over 900 smaller islands in Melanesia, part of Oceania, to the northeast of Australia is directly adjacent to Papua New Guinea to the west, Australia to the southwest, New Caledonia and Vanuatu to the southeast, Fiji, Wallis and Futuna, and Tuvalu to the east, and ...

Solomon Islands Ministry of Mines, Energy and Rural Electrification Solomon Power Data Collection Survey on the Promotion of Renewable Energy in Solomon Islands Final Report March 2019 Japan International Cooperation Agency (JICA) Deloitte Tohmatsu Consulting LLC Tokyo Electric Power Services Co., Ltd.
